The Election To-day. The political composition of the Legislature and a part of the Executive Government of our State, will be decided by the people at the ballot box to-day. The importance of choosing the best men without particular reference to party, not be too thoroughly impressed upon the cannot be too thoroughly impressed upon minds of voters. We want able, faithful, bonest men in the Legislature, and if this be secured, a new era will have dawned upon us, that will re-

joice the heart of every good citizen.

The elective franchise is too sacred a trust to to trifled with or neglected. Every citizen should feel the responsibility it imposes upon him, at d freely and fairly meet it as he would any and every other obligation either in public or private, for upon the proper discharge of his duty rests the stability of our government. No men can contribute so much to the peace and prosperity of his country as by a judicious exercise of his high prerogative at the ballot box and no consideration, except the interposition of Providence, should be allowed to detain him from the performance of that most sacred duty.

Navigation of Harlem River.

A movement is in progress by a number of the prominent men residing in the upper part of the city, and on the Westchester side, the object of which is to have the Harlem river made pavigable from the North to the East river and also to establish a steamboat line to connect with the lower part of the city, touching at Macombe's Dam, High Bridge, Morris Dock,

Fordham, and Kingsbridge.
The feasibility of this project, so far as making

Macomba's Dam, High Bridge, Morris Dock, Fordham, and Kingsbridge.

The feasibility of this project, so far as making the river navigable, has been before discussed. In 1856 the member from the upper district of the city, then composed of the 12th, 19th, and 22d Wards, brought it before the Legislature, and joint resolutions were passed ordering a survey of the tiver to be made under the direction of the State Engineer and Surveyor, with a view of ascertaining the practibility of the work, and the approximated expense of the same.

The survey was accordingly made the next summer, and we were informed that the report, which was submitted to the next Legislature, was favorable for the work being done at a very reasonable cost. Had the matter been followed up at that seesion, as it should have been, by a bill for the purpose, the work would now, undoubtedly, have been completed. That the expense of making this river navigable, as legitimately belongs to the General Government, as does much, if not all its inland navigable, significantly the company of the control of the state to do it themselves, at its own expense, than that it should longer remais undone.

When we consider the advantages, not only to this city, but to the State to do it themselves, at its own expense, than that it should longer remais undone.

When we consider the advantages, not only to this city, but to the State, that would accrue from this work, we are inclined to think there is no work of improvement, involving the same amount of labor and expenditure, that would compars with it in importance. Vessels coming through the Sound, would save the same distance on a series of the control of th

ous; and vessels from the North River, going up the Sound, would save the same distant and avoid the same dangerous navigation.

Were this work done, the shores of Harlem River, from Spuyten Devil Creek to Hellgate, would be lined with brick, lime, and lumber yards, ship yards, and other business marts. Real estate, on the upper and of the island, would be at once more than doubled in value, and the iness and commerce of the city at once vastly increased. This improvement done, and the upper part of the island, in a very few years, will be as dense in population as it is now from Fourteenth to Forty-second streets, and the consequently enhanced value of property will, extra peculation saide, go far to reduce the rates of taxation.

It should be the pride of every New Yorker as it is now of the Union, and this enterprise is one of the most direct means to accomplish it.

The Plymouth Architectural Prizes.

The Trustees of Plymouth Church, have made their award of prizes for the plans for the new church which is to be erected the coming year, on the twelve lots fronting on Montague and Remsen streets between Hicks and Willow Place, which were purchased for that purpose last Spring. Twenty-two plans were placed in competition, each designated by a motto, the name of the architect being enclosed in an envellope, marked with the same motto, and not to be opened until the award was made. Besides these, two plans were handed to the trustees on Friday last\_after the award was male-which were not finished in season for the competition.

To give architects and those curious in such matters an opportunity to examine the different plans submitted, they are to be placed on exhibition at the social circle parlors connected with the church, to day, to morrow and Thursday, from 9 A. M. until 4 P. M., and also on Thursday evening, from 7 until half-past 9 o'clock. The following is a list of the mottoes and the names of the architects, by whom they were

It is rumored that several changes have taken place in the Austrian Cabinet. The Vienna correspondent of the London Times says:

Baron Hunsun has ceased to be Minister of Police, and will leave for Gnunden, in Upper Austria. The cause of his sudden retirement is not yet positively known, but there is good reason for believing that His Majesty though this bias in favor of "decentralization," was too strongly pronounced. He certainly did not say that the Imperial Government was not disinclined to place Hungary on the same footing as ahe held II years ago, but some of the remarks which he made induced the sar guine Hungarians to believe that the Cabinet intended to introduce an entirely new system. Some 23 persons were present at Rti Megyer, an estate of Count L. On one occasion Baron Hunsar requested the Hungarians to give him some insight into their ante-March municipal institutions, and in the course of the conversation which ensued, he drepped a hint that the Imperial Government would not be disinclined to make concessions in municipal matters to all the provinces of the empire. The ex-Minister is also said to have declared that the Government would not object to admit a Hungarian who enjoyed the confidence of his fellow-countrymen into the Cabinet.

A St. Petersburg letter gives the following particulars respecting Schamul's stay in the Russian capital:

On the day of his arrival, a compact crowd had collected round the entrance of the hotel where he ledged, and all the points where it was expected he would pass in going to visit the authorities. He appeared quite at his care—in no way disconcerted, his manners appeared noble and dignified. He has an intelligent look, and the general expression of his counterance announces energy and the habit of command. His figure is tall and upright, notwithstanding his advanced age. The next day, Schamul, and his son had the honor of being presented to the Empress and the Hereditary Grand Duke at Tearkotselo. The presentation lasted only a few minutes. It is said that he was greatly affected and looked pale. Bullanti, went afterwards to see the Misseums of Natural History, and of the Academy of Sciences. Loss of the Royal Charter.

Montreal, Nov. 7.—The following is taken from the Liverpool Datily Post, of the 37th October; "The public will learn this morning, with overwhelming grief, that the splendid vesses, the Royal Charter, was totally lost, yesterday, in Cliut's Red Bay, near Benger. The me'anchely intelligence, which reached is late last night, was brief, but we fear it is only too true that of upwards of four hundred persons who were on board, only ten are said to have been saved. There is a me hope, however, that this is en exaggeration, but under any circumstances, the loss of Re, it is to be feared, bas been immense. The Royal Charter had about half a million of gold on board, when the disaster took place.

It is not known, for the telegraph had cassed to work, and so destructive had been the storm siong the coast, yesterday, that the Chester and Birkenberd Railway had been destroyed in two places. At Penmanmawr, twenty of the dead bodies had been washed ashore. The bay in which the catastrophe cocurred is two or three miles to the west ward of Puffin Island, in Anglesce, and six or seven mises to the northwest of Beaumaris. It has a scallow, sandy beach for several miles, with promontories at each end of the bay. The country around is wild, and few houses are about.

MEATING OF CITIZENS IN THE 220 WARD, MERTING OF CITIZENS, IN REE 220 WARD,—
For some time past, considerable testing has been manifested in the 22d Ward, on the subject of the regrect of the Railroad Committee of the Board of Councilmen, to take action in regard to the introduction of small cars on the Railroad River Railroad, and most of this has been attributed to the influence of Councilmen John Van Tren. A meeting of citizens was held last evening at the corner of 42nd street and 11th avenue, to express publicly their disgust at the "circumiccutary" efforts of the Councilmen in general. Mr. Wat. O'Brute was elected President, Mr. H. MURRAY was appointed Vice-President, and Mr. H. MURRAY was appointed Vice-President, and GRO. WHITE, Secretary. Mr. O'BRIER, in assuming the position of Chairman, gave a slight sketch of the progress of the movement, stating that though the Hudson River Railroad Company was originally

prohibited from running small cars or collecting fares in the city, yet their doing so having been found essential to the good of that portion of the city, the Board of Aldermen, on the 19th of July, passed an erdinance releasing the Company from the former erdinance recessing the company to the former restrictions, and empowering them to establish a line of small cass. This ordinance, on being brought before the Pourd of Councilmen, was by them reto the Committee on Railroads, in whose next speaker. He thought it the duty of every citizen to see the Board of Councilmen acted rightly and for the good of their constituents—and now he wished to see if they could not be forced to do their duty. He then presented the following preamble and reso

ution, which were adopted unanimously : Whereas, An ordinance authorizing the Hudson River R.R. Co to run small cars upon their read, was passed unanimously by the Board of Aldermen, on the 14th day of July last, and Whereas, Said ordinance was duly transmitted to the Board of Councilmen for consideration, and by them referred to the Railroad Committee of said Read, and

them referred to the Raurond Committee Beard, and
Whereas, Said Committee have hitherto neglected

Whereas, Said Committee have hitherto neglected to report upon said ordinance, thereby depriving the citizens of the west side of the city of the railrost privileges necessary to their convenience and the proper development of their property, now therefore to it.

Rescived, That we will use all our influence with our friends in the other districts of the city to defeat the re-election of such members of the Board of Councilmen as are in any way, directly or indirectly, responsible for the neglect to concur with the Board of Aldermen in the passage of said ordinance, and particularly to strive for the defeat of the member of the Railroad Committee who obstructs its passage by refusing to report.

Three loud cheers were then given for the small cars, and a voice in the crowd cried, "We will have

cars, and a voice in the crowd cried, "We will have those small cars run, whether they will or not; if they don't, we'll jump on the track and tear it up."

Mr. Hugu Mussay rewarked, that "a want of oraors for the occasion was felt, in consequence of the nearness of the election, This movement was got up solely for the good of that portion of the city for which it was evidently a necessity, not as a politica, movement at all. The principal getters up of this first meeting, were Mr. O'BRIEN and myself—one of whom is known to be a Republican, and the other a sturdy Democrat; but we both see that it is necessary for the welfare of the Eleventh avenue. All we who live on this side of the city. present, to get to so important an avenue as the 11th merely to gratify John Van Tine, a councilman, who lives away on the East River, and who ha probably never been here in his life. He merely opposes it to get some back-handed work, to make t pay. If there is any one here who thinks we have ot just as good a right to a railroad as the Ninth or Eighth, or any other Avenue on which there are railreads at present, let him speak out. This is a meeting for free speech, but you all see how necessary this railroad is. If we don't get our rights by civil, honest means, then we have got to go and figh few remarks, and concluded by proposing that the President and Vice President should be empowered to act as a Committee to wait on the Committee of Common Council, and urge immediate action. Th livered a few brief remarks, similar in substance t those of Mr. MURRAY-sheers were given for O' Break, and the small car movement, and then the

He would distinctly charge, so that the City Inspector might understa t, that men employed in a department of which he had control, were receiving more than their legal fees. This, the charter declared to be an offence which should be punished with removal from office and if the City Inspector did not stop this abuse then it was the duty of the Mayor to remove the City Inspector.

Mr. McKson then read numerous affidavits, made y parties who had paid money to one Kuion Among the affidavise was one by a Mrs. Kunczinaus who paid him \$250 on the sidewalk, in front of Isv. ING's office, and then went up and received a permit of Invine personally. Another person testified that he also paid money to Kunoz, who consuited with Invine saids for a few minutes, and then all went up stairs together, when Invine gave him the permit. Mrs. Kungmans was asked to give the clerk something extra, and gave him \$2, all she had after paying for the permit. One man swore that he was sked to give two clerks something, and handed out \$5 to each, in Invinc's office and in Invinc's pres ence, although he did not think Invine noticed who was going on. In several cases persons were told repeatedly, that if any one asked if they paid money, deny having paid a cent.

Another affidavit was read, from which it appeared that a clerk in Invinc's employ had advised certain parties that if they wanted permits they had better apply to Forrell; that Forrell was seen in Inv ING's office, and afterwards negotiated with the deponent and received the money.

Mr. McKnon thought this clearly proved the conection of Forrett, (whose real name is said to be VAUXPELL) with Invinc's office; and it was clear, also, that KEHOE was the agent of Inving. He denounced the whole thing as robbery and extortion. I might be said that so long as there was no authority collect money for permits, if they were fool enough to pay, they must suffer the conseque but the truth was, if they did not pay, their stand were taken away from them. In support of this assertion, he read the affidavit of Mr. McGovern who had a stand cut down by Invinc's order, to hal its former value. He reiterated the statement that if Mr. DELAVAM did not reform this state of things. ne should himself be removed from office.

The Mayor said if he had the power be would set tie the matter in five minutes. He stated also that copies of the affidavits would be immediately sent to Mr. DELAVAN, and there the matter rests for the pre

Inquests, Accidents, &c.

The Drath of Free Rica Marcus UsexPlained.—Corons Jackman held an inquest
on Monday, st., the N.Y. Hospital, upon the body of
Frederica Marcus, the young woman who was found
in a dying condition at 2½ o'clock or Bunday morning, lying upon the payement in iront of her residence
in Rosevelt at, near the corner of Chatham st., with
her skull fractured, and the evidence of the policemean who found her, and of her brother was taken;
but they knew nothing of the manner in which she
lost her Ris. Dr. Hull, of the Hospital, testified,
that he had made a post morbus examination of the
body, and ascertained that death was caused by a
fracture of the skull, but by what means it was fractured, he was unable to may. The jury neadered a
verdict of "Death from the fracture of the skull, at
the hands of some person or persons unknown to the

CHARGE OF FORGERY .- DOUGLAS V. DON-CHARGE OF FORGERY.—DOUGLAS V. DON-BELLY was alrested on Monday, charged with forging the name of Tros. M. WILDING, foreman of Hook and Ladder Company No. 4, to an invitation to go with the company on a target excursion. The invitation was adoressed to Merwin P. Beruzz, Democratic candidate for Senator from the 5th Senatorial District, who declined the invitation on account of other en-gagements, but sent the writer, whom he supposed to be foreman of the Co., an order for three first quality hats. The accused was taken before Justice Serres and locked up for examination. LARCENERS.—A vonth. named Cuas. MULLER.

LARCENIES.—A youth, named CHAS. MILLER, was arrested, charged with stealing clothing to the value of \$29, from the promises of GRO. KREWENTZ, No. 27 Caral street.

WH TURE BUIL, a youth, but an alleged old offender, was arrested for stealing a tub of butter and some other articles from the premises of ERMAL WHERLER, No. 234 Henry street. Both were held by Justice Kelly for trial. CHARGE OF MAYHEM.—THOS. McCABE, &

CHARGE OF MATHEM.—THOS. McCABE, a youth 20 years of age, was arrested yesterday, charged with biting off one of John Mccaarman's ears, while fighting with him in West 29th street, near 10th avenue, on Sunday night. He was committed by Justice Qtackeneuan to answer. CHAPGE OF BURGLARY .- A man, named

wo accomplices, who escaped.

An Alleged Forced Sale.—An Irish labo AN ALLEGED FORCED SALE.—An Irish laborer, named David Dougharty, made complaint at the City Hall Police Court yesterday against John Dog, a clother is Chatham street, alleging that the defendant had robbed him of \$5. A number of witnesses were examined, when it appeared from their evidence, that Dougharty had purchased a coat at the store of the latter on Saturday evening, for which he paid the \$5 in question. The case was accordingly dismissed.

cordingly dismissed.

On Sunday morning, the office of the Trinity Church Corporation, located on Church street, between Vesey and Fulton streets, was burglariously entered and robbed of a quantity of silver plate and \$300 in money. The burglars, as is supposed, effected an entrance to the building by the rear windows, which open on St. Paul's churchyard, and, by means of gunpowder, biew open one of the asfee, and from which the took the following articles and \$300 in bilis and gold:

or gunpower, blew open one of the sa'es, and from which the took the following articles and \$300 in bills and gold:

Two flagons marked G. R. (Georgius Rex), with royal arms; two cups marked A. R., with the royal arms; seven plates (effectory) with the cross and mitre, marked 'Corporation of Trinity Church, 1827;" one large off-trory plate; two off-trory plates, with an inscription, "The Gift of Mrs. Mary Learn's to Trioity Church, in the City of New York, 25 of Dec., 1718." one large pitcher and, two small ones; one spoon, one spoon and one funnel.

The plate was heavy and was worth upward of \$300. It corprised the entire communion service of \$t. Pani's Church, and had been in use in that congregation many years. The money that was in the safe, belonged to the sexton, who had put it in there for safe-keeping. From indications about the building it appeared evideat that the burglars designed blowing open another safe, which contained the church records, deedsjand other valuable papers; but from the fact that they left this strong box unmolested, the supposition is, that they became alarmed and fled with what they had already obtained.

Coughs and Colds: Coughs and Colds:

Et no one neglect a cold or a slight cough. Thousands doing so have had one cold added to another, sutil the mucus membrane lining the air passage has become excessively irritated, and even permanently thickened, and soon chronic cough, chronic pneumonia and consumption successfully gailop along. The best time to cure all this is when it begins. If you are so fortunate to possess a case of HUMPHREY'S SPECIFIC HOMEOPATHIC MEMEDIES, and if you do not you ought to, at ence take a COUGH PHILL and then two or three piles per day, with care as to renewed exposure, will bring you all right in a day or two. If your cough has got further along, then more care and more patience is necessary for a cure, though it lays in the same direction. Our advice is to keep the feet warm, the head cool, and take HUMPHREY'S HOMEOPATHIC COUGH PHILS. Price 26 cents per lox, with directions, Six boxes \$1.
